Medical Coding

Duration - 2 months

**Industry
Certification**

Skill India Certified

**250+
Partner Companies**

From diagnosis to billing Code with precision.

From clinical data to compliant billing - become industry-ready.

This immersive Medical Coding program takes you beyond foundational concepts into real-world healthcare documentation and coding workflows. Learn ICD, CPT and HCPCS coding systems, medical terminology, anatomy and healthcare regulations through hands-on case studies and guided practice. With a strong focus on accuracy, compliance, and industry standards, you'll graduate with the ability to translate clinical records into standardised codes, ensure proper billing and contribute confidently to healthcare revenue cycle management.

ABOUT ADYAPAN SCHOOLS

Where education meets real-world impact

Not just a course — a platform to launch
your career.

Adyapan Schools was built with a single conviction:
learning works best when it happens in the real world.
We partner with top companies, mentors, and industry
platforms to ensure every student graduates with a
portfolio of work that speaks louder than a certificate.

Our programs combine rigorous coursework with live
client projects, giving you the skills and proof-of-work
that employers actually want.

MISSION

To equip ambitious learners with
practitioner-level digital
marketing skills through mentor-
led, project-based education that
bridges the gap between learning
and earning.

VISION

To be India's most trusted
launchpad for the next generation
of marketing leaders — defined
not by degrees but by the real
work.

Everything you need to grow fast

PROGRAM HIGHLIGHTS

Live Industry Projects

Work on campaigns for real brands alongside your coursework. Build portfolio projects that prove your expertise to employers.

1-on-1 Mentorship

Dedicated mentors from Google, Microsoft, Mastercard and more. Get personalized guidance and industry connections.

AI-Powered Marketing

Learn cutting-edge AI tools alongside evergreen fundamentals. Stay ahead of the curve in a rapidly evolving landscape.

Dual Certification

Earn both a Course Completion and Internship Certificate – accredited by Skill India Digital Hub and NSDC.

Internship Guarantee

Graduate with an internship completion certificate from a live brand project. Concrete, resume-ready proof of work.

Industry Network

Join a network of alumni at Amazon, Google, Adobe, Microsoft. Access exclusive hiring events and referral opportunities.

8 weeks. 8 modules. Infinite impact.

WEEK 1

Introduction to Medical Coding & the Healthcare Ecosystem

- Discussion of curriculum
- Overview of medical coding as a career: roles, work settings, and salary expectations
- How coding connects clinical documentation to reimbursement and compliance
- Required code books and how to navigate them (ICD-10-CM, CPT, HCPCS Level II)
- Introduction coding ethics and professional standards

WEEK 2

The Three Core Code Sets - Structure & Purpose

- Distinguish between genetic, biochemical, and cell-based target validation
Understanding the structure and purpose of CPT, HCPCS Level II, and ICD-10-CM
- How the three code sets work together in a single patient encounter
- Code set application guide: selecting the right codes for diagnoses, procedures, and supplies
- How to look up and verify codes using official references and practice tools

WEEK 3

CPT Coding - Procedures & Services

- CPT code structure: categories, modifiers, and guidelines by section
- Evaluation & Management (E/M) coding: office visits, consultations, and level selection
- Surgery, radiology, and pathology coding fundamentals
- Using the CPT index and tabular list to locate and confirm codes accurately

CURRICULUM

8 weeks. 8 modules. Infinite impact.

WEEK 4

HCPCS Level II Coding - Supplies, Equipment & Services

- HCPCS Level II structure: alphanumeric code ranges and their categories
- Coding for durable medical equipment (DME), drugs, and ambulance services
- When to use HCPCS Level II versus CPT and how they interact on a claim
- Common coding errors and compliance pitfalls in HCPCS billing

WEEK 5

ICD-10-CM Coding - Diagnoses & Conditions

- ICD-10-CM structure: chapters, categories, subcategories, and seventh-character extensions
- Official ICD-10-CM guidelines: sequencing, combination codes, and laterality
- Coding for acute vs. chronic conditions, signs/symptoms, and uncertain diagnoses
- Common diagnosis coding scenarios: injuries, chronic disease management, and preventive care

WEEK 6

Medical Necessity & Payer Requirements

- Defining medical necessity and its role in claim approval or denial
- How payers use Local Coverage Determinations (LCDs) and National Coverage Determinations (NCDs)
- Linking diagnosis codes to procedure codes to support medical necessity on claims
- Responding to denials: appeals, queries, and documentation improvement strategies

CURRICULUM

8 weeks. 8 modules. Infinite impact.

WEEK 7

The Revenue Cycle & Claim Submission

- Front-end revenue cycle: registration, insurance verification, and prior authorization
- The CMS-1500 and UB-04 claim forms: structure, fields, and coder responsibilities
- Understanding Explanation of Benefits (EOB) and Remittance Advice (RA) documents
- Fraud, waste, and abuse in billing: the False Claims Act and coder liability

WEEK 8

Certification Preparation & Practical Readiness

- Overview of major coding certifications: CPC (AAPC), CCS (AHIMA), and how to choose
- Timed practice exam covering CPT, HCPCS Level II, ICD-10-CM, and compliance scenarios
- Career preparation: building a coding resume, remote work opportunities, and internship guidance

WHO THIS IS FOR

This course is perfect for

Students & Career Switchers

Medical Coders & Healthcare
Documentation Professionals

B.Pharm, BSc Nursing, Life
Sciences & Allied Health
Students

Healthcare & Pharmaceutical
Industry Professionals

Medical Transcription & Billing
Professionals (Upskilling)

Healthcare & Clinical
Professionals Transitioning
to Coding Roles
